

Are you responsible for your Company's payroll?

Do you have employees with child support withholdings?

Often times, employees who owe child support have more than 1 case. Or, employees do not earn enough to cover their entire support obligation without exceeding the *Consumer Credit Protection Act (CCPA). This can be confusing and difficult for employers to calculate!

What do you do when this happens?

The Ohio Child Support Directors' Association has created a tool to help employers resolve issues related to child support withholding requirements.

If you have access to Microsoft EXCEL, you can save this step-by-step worksheet to your computer and take advantage of it's convenience and accuracy.

Save your company unnecessary calls and questions by calculating accurate deductions using the MULTI-ORDER CALCULATOR. This worksheet is guaranteed to save you time and reduce the potential for errors, ***when proper information is entered.***

Click the link below and follow the instructions.

Remember to **save** this spreadsheet to your computer for use on all child support cases administered by **Ohio Child Support Enforcement Agencies.**

Questions/Comments regarding the use of this worksheet should be directed to the county agency which issued the withholding order.
